The School

Welcome to Borlase

Welcome to Sir William Borlase's Grammar School where we are proud of our heritage as we approach our 400th birthday and excited to be inspiring and empowering the aspirations of our students today. A state-funded school in the centre of Marlow, Borlase is recognised for excellent academic results, innovative teaching and learning and outstanding extra and super-curricular programme.

The children of members of staff are given priority in the admissions process in the event of oversubscription. Please see the school's admissions policy for more details.

History

At Borlase we are proud of our long history of providing education to the young people of Marlow and surrounding areas since 1624. The school was built on a strong principle: the desire to enable children from all socioeconomic backgrounds to have the opportunity to learn and meet their potential.

Today

Our school has a very special energy that springs from a contagious enthusiasm for learning across all subjects; this extends well beyond the classroom through the many independent project groups, academic clubs and societies that flourish at school on a daily basis.

The calendar is full of opportunities to enrich learning through trips, visits, practical explorations and independent research. Borlasians aspire to achieve their best academically and personally and are unashamedly ambitious in those aims. High achievement comes from the genuine enjoyment of learning and we are committed to fostering that enjoyment in and outside the classroom.

Our teachers are all specialists in their chosen disciplines who are passionate about creating learning experiences that provoke independent thinking and creativity.

Future

The School is committed to developing educational pedagogy, its creative curriculum and supportive pastoral programme, continuing to empower young people to be leaders in their chosen fields.

The Role

Teacher of Design Technology

Full Time/Part Time

Required for September 2023

We are seeking to appoint a passionate Design Technology teacher who would like to work with students who are all eager to learn and challenge themselves, to join our high performing school. We are looking for a teacher of design Technology who can teach up to GCSE who potentially would be interested in developing A level. The ideal candidate would also be able to teach Computing to KS3.

The Department

We have two fully equipped workshops and two separate classrooms for Design Technology and there is a large uptake of students at GCSE. Many of our students leave Borlase to go onto practical and engineering careers and the skills they learn in Design Technology are vital for these pathways. We currently have a KS3 scheme of work where all students study Design Technology, rotating through Wood, Food, Electronics and Design. Students in KS3 love the practical nature of this subject and are extremely enthusiastic about this subject. We would love to strengthen the ties between DT and computing.

There is a dedicated technician who supports the department.

We do not currently offer Design Technology A level however this is something the successful candidate may have an opportunity to introduce.

We have an extremely successful performing arts culture at the school and put on many staged shows

- there is close collaboration with the DT department on set design and production arts and the school runs a Btech in Production Arts for sixth form students.

There are many opportunities for students to go above and beyond the curriculum, ranging from competitions and projects to conferences and subject-based lectures. Sixth-form students lead the school's Physics Society and Engineering Society, supported by our STEM coordinator. A large number of students complete a CREST award or a science-based Extended Project Qualification and they are able to create an artefact for this using their practical DT skills. Older students are also actively involved in mentoring students in younger years.

We have had many successful students over the year on the Arkwright Scholarship, as well as students going onto the Dyson course. We have run Robot Wars from the DT department in the past.

Job Description

Main Responsibilities

Teacher of Design Technology

- To inspire and empower students to shape the future.

Objectives

- To promote the academic and personal development of all students
- To encourage and support the learning of all students
- To ensure the highest possible standards of student behaviour
- To be committed to developing teaching and learning pedagogy
- To promote positive values and attitudes
- To demonstrate professional values and practice
- To take responsibility for knowing and understanding Safeguarding practices at the school and keeping up to date with all Safeguarding Training.
- To ensure all children feel safe at school and understand the mechanisms for reporting concerns.

***Please note – All teachers are
Form Tutors***

Main Responsibilities

Teacher of Design Technology

- Planning and delivering Design Technology lessons of a very high standard to Key Stage 3 and 4 classes, and ideally Computing to Key Stage 3 classes within the curriculum
- Note the DT curriculum currently includes: Plan, design, make and Evaluate in Wood, Set Design, Electronics and Food. The successful candidate would be able to use their strengths to help shape this curriculum.
- Assessment and support of student progress towards achieving their academic targets
- Managing the students for whom you have responsibility as their teacher and Tutor
- Contributing to the pastoral support as a Tutor
- Working professionally as a member of subject teaching and tutorial teams
- To plan and teach sequences of lessons which incorporate an appropriate range and depth of subject knowledge in line with statutory requirements
- To teach lessons with clear objectives and well-pitched tasks which provide pace and challenge using a variety of learning strategies.
- To understand the responsibility required under the SEND Code of Practice and to seek advice from SEND Coordinator when appropriate.
- To employ a variety of marking, monitoring and assessment strategies to inform planning, develop learning and evaluate students' progress.
- To provide constructive feedback to help students reflect upon and improve their work.
- To make effective and regular use of the school's assessment criteria and reporting procedures to inform learning.
- To contribute to the wider activities within the Physics Department.
- To keep the form register and monitor patterns of student attendance/ absence.
- To make appropriate use of the school's rewards and sanctions procedures in line with the school's behaviour policy.

Job Description

- To monitor the progress of students in your tutor group by target setting and through regular inspection of homework diaries, planners and/or other appropriate methods (e.g. students on report).
- To report concerns about individual student progress and behaviour to relevant senior staff.
- To demonstrate consistently high expectations of all students and a commitment to raising their achievement.
- To promote the positive values, attitudes and behaviour expected from all students by treating them with respect and consideration.
- To communicate promptly and sensitively with parents, carers and other relevant bodies where necessary.
- To contribute towards, and value, the work of teams of staff dedicated to advancing student learning and welfare.
- To be aware of, and work within, the statutory frameworks relating to teachers' responsibilities and the Borlase Teacher Aspiration framework.
- Demonstrate consistently high standards of personal and professional conduct; showing tolerance and respect of the rights of others whether other staff, students or parents.
- To observe proper professional boundaries and having regard to the safeguarding and wellbeing of students.
- The post holder is responsible for ensuring all child protection policies are adhered to and that any concerns or incidents are raised in accordance with these policies.

Note: The Teacher of Design Technology will also be a Form Tutor
