By signing below, I am confirming I understand that the purpose of the review will be to decide whether the process used for the internal assessment conformed to the published requirements of the awarding body's specification and subject-specific associated documents. I also understand that the review is to check that the mark scheme has been accurately applied within the bounds of tolerance. It is not a "re-mark" of the work. I have read the Review of Centre Assessed Marking Policy and understand that as a result of review, marks may increase, decrease or stay the same. If a mark decreases, there is no further appeal that can be made before marks are submitted to the exam boards. I understand that any mark is subject to the exam board moderation process and the setting of grade boundaries, and that a further review of NEA components cannot be requested when grades are issued in the summer.
